-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2822

DETAILED ACTION

1. This Office Action is in response to the Amendment filed December 29, 2003.

Claims 1-20 are pending.

Claim Objections

2. Claim 5 is objected to because of the following informalities: claim 5 recites "claim 3 4". Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites "one of the magnetic layers is structured by etching, in which, during etching, a part of the relevant layer is made thinned by removing material until a rest layer remains". The claim is vague and indefinite.

Claim 1 recites the limitation "the relevant layer" in line 4. There is insufficient antecedent basis for this limitation in the claim.

Response to Arguments

4. Applicant's arguments filed December 29, 2003 have been fully considered but they are not persuasive. Claims 1-4 and 6-20 stand rejected.

Art Unit: 2822

The rejection of the claims is maintained because there is insufficient antecedent basis for "the relevant layer". It is unclear if the relevant layer is referring to the magnetic layers or the barrier layer. It is unclear if the rest layer is referring to a different layer or being part of the layer being etched.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Ruigrok et al. (U.S. 6,486,662) (of record), Kumagai et al. (U.S. 6,365,948) (of record), and Gallagher et al. (U.S. 5,650,958) (of record) teach a magnetic tunnel junction device. Slaughter et al. (U.S. 6,544,801) and Blamire et al. (of record) "A new Self-Aligning Process For Whole-Wafer Tunnel Junction Fabrication" teach a method of fabricating a magnetic tunnel junction device.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
